Arrivals by sea recorded	65,946	27,458	93,404	81,699	42,529	124,228
Deaths recorded	8,575	6,377	14,952			
Departures by sea recorded	47,382	20,720	68,102			
Departures by land and sea, unrecorded (estimated) ...	7,243	2,033	9,276			
				63,200	29,130	92,330
Estimated increase during the year				18,499	13,399	31,898
„ Population on 1st January				512,953	458,192	971,145
Estimated Population on 31st December				531,452	471,591	1,003,043
Estimated mean population during the year				522,203	464,891	987,094

NOTE.—In the present estimate of population, allowance has, for the first time, been made for the unrecorded departures, which have occurred since the Census of 1881 was taken. Such departures, between the date of the census and the end of 1886, are estimated to have amounted to 30,000, viz., 24,000 of males and 6,000 of females. Had this allowance not been made, the population of Victoria would have apparently amounted at the end of 1886 to 1,033,043, viz., 555,452 males, and 477,591 females.

(*a*) The financial year of Melbourne and Geelong ends on the 31st August, that of all other municipalities on the 30th September.——(*b*) Including expenses of audit, collection of statistics, making valuation, commissions paid in lieu of salaries, &c.——(*c*) In many instances the value of town halls, furniture, waterworks, &c., has been reckoned by the municipal authorities as part of the assets.——(*d*) In this column the amounts of outstanding loans have been included with the liabilities.

NOTE.—The revenue of, and expenditure on, local waterworks are not included. The returns of revenue and expenditure represent the *net* receipts and expenditure of the year under review, exclusive of credit and debit balances, bank overdrafts, loans, deposits, &c.; to ensure uniformity and accuracy, therefore, the returns in which these items were in the first instance included have been corrected from the printed balance-sheets.

* Including expenses of audit, collection of statistics, making valuation, commission paid in lieu of salaries, &c.——† In many instances the value of shire halls, furniture, plant, &c., has been reckoned by the authorities as part of the assets.——‡ In this column the amounts of outstanding loans have been included with the liabilities.

NOTE.—The revenue of, and expenditure on, local waterworks are not included. The returns of revenue and expenditure represent the *net* receipts and expenditure of the year under review, exclusive of credit and debit balances, bank overdrafts, loans, deposits, &c.; to ensure uniformity and accuracy, therefore, the returns in which these items were in the first instance included have been corrected from the printed balance-sheets.

[1] The items in this Table are summarized according to a principle agreed to at a conference of Government Statists of several of the Australian colonies, held in Tasmania in the month of January, 1875.—— [2] During and after this year, four-fifths of the Wharfage Rates for the Port of Melbourne, which had previously formed part of the Customs revenue, were transferred to the Harbour Trust.—— [3] Including revenue from Beer and Tobacco Duties, amounting to £84,429 in 1880-81, and £216,547 in 1881-2. The duties were first imposed on the 1st November, 1880. The Beer Duty expired by effluxion of time on the 31st August, 1882. The duty on spirits was increased on the 17th July, 1884.—— [4] Including a proportion, amounting to £4,600, of Publicans' Licence Fees, &c., received, for the first time, under Act 40 Vict. No. 566, section 111.—— [5] For six months only.—— [6] For about 6½ months only. The duties were imposed on the 18th December, 1879. Since the 1st January, 1884, the revenue from stamp duties has been estimated in consequence of the stamps hitherto used to denote Stamp duty, Postage, and Fees having been made interchangeable, and only one class of stamps for all purposes is to be used in future.—— [7] The amount of Land Tax payable annually varied from £126,000 to £124,000. The fluctuations in the revenue above and below this limit are due to the irregular payments of the tax.—— [8] Including, for the first time, revenue derived from the Melbourne and Hobson's Bay system, recently purchased by the Government, amounting to £203,679. This amount consists of £43,728 net revenue for 1878-9, and £159,951 gross revenue for 1879-80.—— [9] Including interest on loans to Local Bodies for Waterworks.—— [10] Partly estimated.—— [11] For details of this item, see Supplementary Table, *post*.—— [12] Not including £500,000 raised by means of Treasury Bonds.

[1] The items in this Table are summarized according to a principle agreed to at a conference of Government Statists of several of the Australian colonies, held in Tasmania in the month of January, 1875.

[2] Including Governor's salary, and salaries of Ministers, Commissioners of Audit, Agent-General, expenses of Executive Council, and Public Service Board; also Public Worship until the middle of 1875-6, when State Aid was abolished.

[3] Including cost of the following departments:—Chief Secretary, Shorthand Writer, Agent-General, Audit Office, Registrar of Friendly Societies, Treasury, Stores and Transport, and Government Printer.

[4] Including expenditure under the following heads:—Education, Government Statist, Observatory, Government Botanist, Public Library, Museums and National Gallery; Grants to Mechanics' Institutions, Free Libraries, &c., and Grants to Schools of Mines and Design.

[5] Since 1874-5 the amount expended on school buildings has been paid entirely out of loans.

[6] Including expenditure under the following heads:—Chief Medical Officer, Central Board of Health, Hospitals for Insane, Industrial and Reformatory Schools, and Grants to Charitable Institutions.

[7] Including £5,620 for surveys in Mallee districts, &c., to be recouped by lessees.

[8] The amount entered under the head of Special Appropriations in 1885-6—with the exception of £6,000 for salaries of the Railway Commissioners—was paid into the "Railway Construction Account," in accordance with the direction of the *Land Act* 1884 (48 Vict. No. 812, sec. 78), whereby it was provided that all moneys arising from the sale by auction of Crown lands shall be placed to a trust account, the amount standing to the credit of which should be available for the construction of railways. The amounts entered prior to 1882-3 also represent the payment of moneys derived from the alienation of Crown Lands—but fixed at £200,000 per annum—to a similar account (known as the "Railway Loan Liquidation and Construction Account"), which was created under the Land Act 1869 (33 Vict. No. 366); full particulars of which were published last year. The total amount paid into both these accounts up to the 30th June, 1886, was £2,288,667, all of which, with the exception of an unexpended balance of £88,667, has been expended on the survey or construction of lines of railway. The amounts entered under the head of Votes represent the "Working Expenses."

[9] Exclusive of £50,000 recouped in 1885-6.

[10] Exclusive of School Buildings, Railways, Water Supply, and of all public works paid for out of loans, but inclusive of endowments of municipalities under the *Local Government Act*. The expenditure on the Port of Melbourne, included under this head prior to the 1st January, 1877, has since been paid out of the Harbour Trust Fund.

[11] The provision of the *Local Government Act* 1874, authorizing the annual subsidy of £310,000 to municipalities, lapsed on the 31st December, 1879, but amounts equivalent to the subsidy have since been voted by Parliament. This accounts for the gradual transfer of this item of expenditure from "Special Appropriations" to "Votes."

[12] The amounts under the head of "Special Appropriations" represent the net expenditure on account of Steam Postal communication, including gratuities to masters of vessels, interest on Savings Banks deposits, and subsidy for maintenance of the cable from Port Darwin to Penang.

[13] Although the annual subsidy to the Mint is £20,000, portion of that sum has been repaid each year to the revenue.—See Table of General Revenue, *ante*, under the head "Mint Subsidy returned."

[14] The expenditure under the head of Votes represents interest and expenses in connexion with the Melbourne and Hobson's Bay Railway Debentures.

[15] Extensive reductions in the Public Service were made in the years 1877-8 to 1879-80, which caused an increase in the amount of retiring allowances gratuities, and compensations.

[16] Including a vote of £2,600 in 1880-81, of £5,000 in 1881-2, of £8,000 in 1882-3, and of £10,000 in each of the last three years, to meet deficiencies in the Police Superannuation Fund.

[17] Including £10,207 paid as compensation to officers whose services were dispensed with between the 8th January and 9th April, 1878.

[18] For details of expenditure from votes under this head, see Supplementary Table, *post*. The amounts in the column for Special Appropriations are the unexpended balances of the Pension Fund (Schedule D, Part V.), repaid each year to the revenue.

[19] Not including £471,900 in 1881-2, £18,000 in 1882-3, and £10,100 in 1883-4, expended towards the redemption of Treasury Bonds.

NOTE.—For items of expenditure out of Loans raised under various Acts for the purposes of Water Supply, Railways, Public Buildings, State School Buildings, and Alfred Graving Dock, see Table of Loan Account Expenditure, *post*.

* The Melbourne Harbour Trust was established under Act 40 Vict. No. 552, which came into operation on the 1st January, 1877.

† The figures in this line represent four-fifths of the Wharfage Rates at the Port of Melbourne, which proportion has formed part of the Revenue of the Trust since the 30th June, 1877. Prior to that date the whole of the Wharfage Rates were paid to the General Revenue of the colony.

‡ Amount expended from the 30th October to 31st December in working the Steam Ferry at the foot of Spencer-street. The working expenses for 1885 have been deducted from the receipts for that year.

§ Exclusive of sums received as premiums on loans raised, viz., £14,562 in 1884, and £10,459 in 1886.

* Embracing the pensions of Lady Darling, of Mrs. Petrie, of Ministers relieved from office on the introduction of Responsible Government and on political grounds, and the Superannuation Allowances of a late Clerk of the Parliaments and of a late Master-in-Equity.

† Including pensions under the Railways, Public Service, Education, Discipline Acts, &c.

NOTE.—Up to 1880–81 the pensions and superannuation allowances referred to in this table are those which would be payable supposing the whole to have been in existence throughout the 12 months. Since that year the figures represent the absolute amounts paid. The material for this return has been derived from statements furnished each year by the Honorable the Treasurer.

NOTE.—The above classification, which is now used for the first time in Victoria, was framed by the Registrar-General of England a few years since, on the basis of the Nomenclature drawn up by a Committee of the Royal College of Physicians—the second edition of which was published in 1885. In order to facilitate the classification of the causes of death in Victoria according to this method, a nosological index suitable thereto has been compiled by the Government Statist, and was issued in the early part of 1887. For further information respecting this classification see *Victorian Year Book*, 1886–7.

NOTE.—In the above table, the deaths from each cause, recorded prior to 1886, under the old system of Nosology, have been rearranged, so as to agree with the new system, now used for the first time. The number of diseases under the new classification being considerably larger than under the old, it has not been possible to give the numbers under every cause of death. The respective heads under which those diseases, recorded but not specially enumerated in former years, are now arranged, are indicated in the following notes :—

(*a*) "Epidemic Rose Rash" (Class I. Sub-Class 1) and "Cellulitis" (Class VI. Sub-Class 11) included with "Other Diseases of the Integumentary System" (VI., 11).

(*b*) Under the head of "Septicæmia and Pyæmia" (I., 6) it is possible a few cases of "Mumps" and "Other Miasmatic Diseases" (I., 1) may be included.

(*c*) "Others from Vegetable Parasites" included with "Others from Animal Parasites."

(*d*) "Scurvy" (III.) is included with "Purpura" (IV.).

(*e*) "Lupus" (VI., 11) included with "Cancer" (IV.).

(*f*) "Anæmia, Chlorosis, and Leucocythæmia" (IV.) distributed over other heads, viz.:—Anæmia with "Dropsy" (VIII.), Chlorosis with "Diseases of Menstruation" (VI., 8), and Leucocythæmia with "Other Diseases of the Circulatory System" (VI., 3).

(*g*) Prior to 1886 "Diabetes Mellitus" (IV.) includes cases of "Diabetes Insipidus," now classed with diseases of the bladder (VI., 7).

(*h*) "Atelectasis" (V.) included with "Debility" (VIII.)

(*i*) "Softening of the Brain" (VI., 1) and Diseases of the "Ear and Eye" (VI., 2) included with "Other Diseases of the Nervous System."

(*j*) "Laryngismus Stridulus" (VI., 1) included with "Laryngitis" (VI., 4).

(*k*) "Epistaxis and Diseases of Nose" (VI., 2) included with "Other Diseases of the Respiratory System" (VI., 4).

(*l*) "Senile Gangrene" (VI., 3) and "Bedsore" (VI., 11) classed under "Mortification" (VIII.).

(*m*) "Valvular Disease," "Hypertrophy of Heart," "Angina Pectoris," and "Syncope," classed as "Other Diseases of the Circulatory System."

(*n*) "Other Diseases of Larynx and Trachea" distributed over "Laryngitis" and "Croup."

(*o*) "Stomatitis," except in the few cases given, included with "Other Diseases of Stomach, &c."

(*p*) "Diseases of the Lymphatic System" (VI., 6) distributed over other heads.

(*q*) "Addison's Disease" (VI., 6), "Uræmia," "Hæmaturia," and "Disease of Prostate" (VI., 7) included with "Other Diseases of the Urinary System" (VI., 7).

(*r*) "Pelvic Abscess" and "Perineal Abscess" (VI., 8) included with "Abscess" (VIII.).

(*s*) "Caries, Necrosis" (VI., 10) included with "Others" of same Sub-Class

* A large proportion of Deaths from Diphtheria and Croup are ascribed to both causes conjointly, and it has often been difficult to decide under which head any particular case should be classified. Latterly, however, the rule has been to consider all cases of Diphtheritic Croup as Croup.

† Including Hæmoptysis.

‡ These deaths occurred in the Sanatorium, Williamstown, in 1884, but were not registered until 1885.

§ Including three outlaws, who were killed by the police.

Note.—In the above table, the deaths from each cause, recorded prior to 1886, under the old system of Nosology, have been rearranged, so as to agree with the new system, now used for the first time. The number of diseases under the new classification being considerably larger than under the old, it has not been possible to give the numbers under every cause of death. The respective heads under which those diseases, not specially enumerated in former years, are now arranged, are indicated in the following notes :—

(*a*) "Epidemic Rose Rash" (Class I., Sub-Class 1) and "Cellulitis" (Class VI., Sub-Class 11) included with "Other Diseases of the Integumentary System" (VI., 11).

(*b*) Under the head of "Septicæmia and Pyæmia" (I., 6) it is possible a few cases of "Mumps" and "Other Miasmatic Diseases" (I., 1) may be included.

(*c*) "Others from Vegetable Parasites" included with "Others from Animal Parasites."

(*d*) "Scurvy" (III.) is included with "Purpura" (IV.).

(*e*) "Lupus" (VI., 11) included with "Cancer" (IV.).

(*f*) "Anæmia, Chlorosis, and Leucocythæmia" (IV.) distributed over other heads, viz.:—Anæmia with "Dropsy" (VIII.), Chlorosis with "Diseases of Menstruation" (VI., 8), and Leucocythæmia with "Other Diseases of the Circulatory System" (VI., 3).

(*g*) Prior to 1886 "Diabetes Mellitus" (IV.) includes cases of "Diabetes Insipidus," now classed with diseases of the bladder (VI., 7).

(*h*) "Atelectasis" (V.) included with "Debility" (VIII.).

(*i*) "Softening of the Brain" (VI., 1) and Diseases of the "Ear and Eye" (VI., 2) included with "Other Diseases of the Nervous System."

(*j*) "Laryngismus Stridulus" (VI., 1) included with "Laryngitis" (VI., 4).

(*k*) "Epistaxis and Diseases of Nose" (VI., 2) included with "Other Diseases of the Respiratory System" (VI., 4).

(*l*) "Senile Gangrene" (VI., 3) and "Bedsore" (VI., 11) classed under "Mortification" (VIII.).

(*m*) "Valvular Disease," "Hypertrophy of Heart," "Angina Pectoris," and "Syncope," classed as "Other Diseases of the Circulatory System."

(*n*) "Other Diseases of Larynx and Trachea" distributed over "Laryngitis" and "Croup."

(*o*) "Stomatitis," except in the few cases given, included with "Other Diseases of Stomach, &c."

(*p*) "Diseases of the Lymphatic System" (VI., 6) distributed over other heads.

(*q*) "Addison's Disease" (VI., 6), "Uræmia," "Hæmaturia," and "Disease of Prostate" (VI., 7) included with "Other Diseases of the Urinary System" (VI., 7).

(*r*) "Pelvic Abscess" and "Perineal Abscess" (VI., 8) included with "Abscess" (VIII.).

(*s*) "Caries, Necrosis" (VI., 10) included with "Others" of same Sub-Class.

* A large proportion of Deaths from Diphtheria and Croup are ascribed to both causes conjointly, and it has often been difficult to decide under which head any particular case should be classified. Latterly, however, the rule has been to consider all cases of Diphtheritic Croup as Croup.

† Including Hæmoptysis.

‡ These deaths occurred in the Sanatorium, Williamstown, in 1884, but were not registered until 1885.

* It is believed that the estimate of the population of Hotham given for the years 1876 and 1877 was too high. The municipal authorities state that the figures furnished for subsequent years are reliable.—† Formerly included with "Remainder of District."—‡ Until 1879 the figures of the Census 1871 have been given for the population of the Shipping; for 1880 and subsequent years those of the Census 1881.—§ Formerly called Emerald Hill.—‖ Formerly called Sandridge.

NOTE.—The deaths occurring in *Hospitals, Asylums*, &c., are shown separately, they having been eliminated from the sub-districts in which they were recorded. If these were distributed over the various districts, the deaths in each district would, of course, be proportionately increased.

* Included in these areas are parks, gardens, and other public reserves, which in Melbourne City cover an area of 1,723 acres, in Hotham of 9, in Fitzroy of 49, in Collingwood of 29, in Richmond of 197, in Prahran of 13, in South Melbourne of 472, in Port Melbourne of 117, in St. Kilda of 230, in Brighton of 167, in Essendon of 46, in Flemington and Kensington of 305 acres, in Hawthorn of 13, in Kew of 646, in Footscray of 38, in Williamstown of 433, and in Northcote of 14 acres. There are also 581 acres in "Remainder of District." The sum of the areas in all the sub-districts amounts to 5,100 acres.——† For alteration in the constitution of these municipalities, see footnote (*) on page 30, *ante*.——‡ Including the Melbourne, the Homœopathic, the Alfred, the Women's, and the Children's Hospitals; the Austin Hospital for Incurables; the Metropolitan and Yarra Bend Lunatic Asylums; the Immigrants' Home, and the Benevolent Asylum. For the deaths which occurred in each of these institutions, see special table on the next page.——§ Census figures.

NOTE.—This table, which is supplementary to the preceding one, does not include all the public institutions in Melbourne and suburbs, but only such as have a high rate of mortality, and consequently would, if included, have a tendency to swell the general mortality of the sub-districts in which they are situated. In 1886 the deaths in all the principal public institutions—including, besides those enumerated above, gaols and penal establishments, industrial schools, orphanages, female refuges, &c.—numbered 1,339, particulars of which will be found in various portions of the *Statistical Register*. The numbers given are those of deaths *registered* during each year, and consequently may not agree exactly with those which actually occurred in the institutions during the same period.

* Deaths of infants born in the institution are also included.

† Deaths in this hospital were not eliminated for the purposes of this table prior to 1881.

HENRY HEYLYN HAYTER, Government Statist.

METEOROLOGY.

*** The times of taking daily observations whereby the records of mean temperature and mean atmospheric pressure are obtained at the various stations are as follow:—Melbourne, Portland, and Wilson's Promontory, 6h. and 9h. a.m., and 3h. and 9h. p.m.; Ballarat, Cape Otway, and Sandhurst, and Gabo Island and Echuca, 9h. a.m., and 3h. and 9h. p.m. To these observations a correction is applied, in order to make the results equivalent to those derived from hourly observations. At Echuca the mean temperature is derived from the max. and min. readings.

* Including wharfage and harbour rates for all the ports prior to 1st July, 1877. On that date the wharfage rates for the port of Melbourne, amounting to over £100,000 per annum, were transferred to a Harbour Trust. A fifth part of these rates is still, however, paid into the consolidated revenue, and is included in this return. It amounted, in 1886, to £34,125.—† Including excise duty paid direct into the Treasury.—‡ Including export duty on red-gum timber. The whole amount collected in 1877 and portion collected in 1878 was, however, subsequently remitted.—§ Including export duty on scrap iron.

NOTE.—This table has been compiled by the Government Statist from returns furnished each year by the Customs Department.

NOTE.—This return has been compiled from information furnished each year by the Railway authorities.

[1] Six months ended 31st December.—[2] Six months ended 30th June.

[3] In this column, in addition to the single journeys and to the return journeys (each counted as two), an estimate has been made of the number of journeys made by periodical ticket holders.

[4] These railways were purchased by the State in 1879 from the Melbourne and Hobson's Bay United Railway Company.

[5] In 1881, 1882, and 1883 the amounts paid on account of compensation to persons injured in railway accidents were unusually heavy, viz.:—£45,160, £114,587, and £25,802 respectively.

Mallee Pastoral Leases	641	10,281,100	4,510
Total	3,827	18,917,621	45,092

NOTE.—Pastoral and grazing area leases are granted for any period not exceeding fourteen years, and Mallee pastoral leases for any period not exceeding twenty years, from the commencement of the Acts, 29th December, 1884, in the former, and 1st December, 1883, in the latter case; whilst grazing licences are only of a temporary character (renewable annually), and are only granted for waste lands of the Crown not required under the principal sections of the Act. The Mallee pastoral leases, as the name indicates, are confined to the Mallee country, in the North-Eastern portion of the colony, which is placed under a special Act, viz., "*The Mallee Pastoral Leases Act.*" The lessees of grazing areas have the privilege of selecting (*i.e.*, purchasing under the deferred payment system under certain conditions) an area not exceeding 320 acres out of their lease for agricultural purposes.

IRRIGATION.—(I.)

*** The three following Tables relating to Irrigation are supplementary to the Summaries of Shires at pages 12 and 14 *ante*. In the case of crops subjected to irrigation in any Shire, the extent of land not so subjected and so subjected is given in the first Table, and the produce grown under each of those conditions in the second Table. No figures are given respecting crops in any Shire of which no portion within such Municipality was subjected to irrigation.

NOTE.—The items in this Table do not represent the whole area under the respective crops grown, but only of such as were taken cognizance of by the collectors. The minor crops are often raised in gardens, in which case the various descriptions would not be distinguished. They may be also grown upon allotments of one acre and less in extent, and these the collectors are not called upon to visit. The Table must, therefore, be looked upon as indicating the nature of certain crops grown in Victoria rather than the full extent to which those crops are cultivated.

NOTE.—The items in this Table do not represent the whole quantity of the respective crops grown, but only such as were taken cognizance of by the collectors. The minor crops are often raised in gardens, in which case the various descriptions would not be distinguished. They may be also grown upon allotments of one acre and less in extent, and these the collectors are not called upon to visit. The Table must, therefore, be looked upon as indicating the nature of certain crops grown in Victoria rather than the full extent to which those crops are cultivated.

* A large plantation of mulberry trees was reported to have been abandoned.——† Of this area, 10 acres of wattle trees were reported to have failed. It is presumed that trees are only included in the tillage of the year in which they are planted.——‡ Reported to have failed.

NOTE.—The items in this Table do not represent the whole of the respective crops grown, but only such as were taken cognizance of by the collectors. *See* footnote to Table on previous page.

* Reapers and Binders were included with Reaping Machines prior to 1884.

NOTE.—By an alteration at various times in the form of schedule used in collecting the returns, special attention has been drawn to several kinds of implements; hence the apparent sudden increases which occasionally appear. *See* Earth Scoops, Horse Hoes, Root Cutters, 1878, &c., &c. Prior to 1882, the machines and implements on pastoral as well as on agricultural holdings were included, but in and since that year only the latter. The large numbers in 1881 are accounted for by the fact that the statistics were then taken by the census sub-enumerators, and the collection was consequently more complete and searching than on ordinary occasions.

* The figures in this column apply to purchased lands only. One hundred and seventy-two of the manufactories were carried on upon Crown lands, and in these cases no valuation of the land has been given.

† These particulars have been combined, in accordance with a promise made to the persons supplying the information that the contents of individual schedules would not be published. One of the establishments to which they relate was situated in each of the following boroughs:—Englehawk, Heathcote, and Inglewood; and one in each of the following shires:—Bet Bet, Caulfield, Dandenong, Gisborne, Heidelberg, Kara Kara, Malvern, Moorabbin, Newstead, Omeo, Oxley, Strathfieldsaye, Whittlesea, Wodonga, and Wyndham.

HENRY HEYLYN HAYTER, Government Statist.

MANUFACTORIES, WORKS, ETC.—(II.)

RETURN showing the Number of Manufactories, Works, &c. (exclusive of Flour Mills, Breweries, Distilleries, Woollen Mills, Brickyards, Potteries, Soap and Candle Works, Tobacco and Cigar Manufactories, Tanneries, Fellmongeries, and Woolwashing Establishments, and Stone Crushing, &c., Works), in operation in the Colony of Victoria during the Year ended 1st March, 1887; also the Nature and Amount of Power employed, the Number of Hands employed, and the Approximate Value of Machinery and Plant, and of Lands and Buildings.

*** *The works, manufactories, &c., respecting which information is given are all of an extensive character, except in cases where the existence of industries of an uncommon or interesting nature might appear to call for notice. Any establishment returned by the collectors which appears to be merely a shop, or at which manufacturing operations are carried on upon a very limited scale, are not included.*

* The figures in this column apply to purchased lands only. One hundred and seventy-two of the manufactories were carried on upon Crown lands; in these cases no valuation of the land has been given.

† Waterworks have not been included, as they are not, properly speaking, manufactories. A Table of all the waterworks in the colony is published at page 70, *post.*

‡ These particulars have been combined, in accordance with a promise made to the persons supplying the information that the contents of individual schedules would not be published.

NOTE.—Stone-breaking and tar-pavement works being carried on in connexion with quarries, it is found impossible to separate them therefrom. The hands, machinery, &c., employed in these industries are therefore included with those of the quarries in the line for 1886.

* Some of the stone quarries returned each year were upon Crown lands. In these cases no valuation of the land has been given.

EXTENT OF GOLD WORKINGS.

RETURN showing the Number of Distinct Quartz Reefs actually proved to be Auriferous, and the Total Extent in Square Miles of Auriferous Ground actually worked upon in the several Mining Districts, on the 31st December, 1886.

Mining Districts.	Number of Distinct Quartz Reefs proved to be Auriferous.	Extent of Auriferous Ground actually worked upon.	
		Sq. mls.	acres.
Ballarat	347	43	332
Beechworth	1,069	76	154
Sandhurst	748	20	320
Maryborough	642	48	0
Castlemaine	412	39	532⅙
Ararat	84	44	0
Gippsland	529	44	0
Totals	3,831	316	58⅙

NOTE.—The number of "distinct" quartz reefs here given is in accordance with the latest information on the subject in the possession of the Mining Department. The number cannot, however, be stated with precision, inasmuch as the progress of exploration has proved that many reefs previously considered separate and distinct, and named accordingly, are really portions of the same line.

The area of ground, shown by the above return to be actually worked upon, comprises all lands held for gold mining purposes upon which mining operations were carried on at any time during the quarter ended 31st December, 1886. In previous years this Return showed the areas over which mining operations had been carried on at any time since the first discovery of the Goldfields.

This Return has been received from the Mining Department.

AVERAGE YIELD OF AURIFEROUS QUARTZ.

NOTE.—This Summary does not show the total quantity of quartz crushed, but only the yield of certain crushings respecting which the Mining Registrars have been able to obtain information. Owing to the circumstance that many of the machine-owners are precluded from giving information, it is impossible to get complete returns.

This Return has been received from the Mining Department.

PRODUCE OF GOLD FROM ALLUVIAL WORKINGS AND QUARTZ VEINS.

NOTE.—The patents applied for numbered 1,097 during the period from 1854 to 1867, both years inclusive; 124 during the year 1868; 139 during 1869; 119 during 1870; 133 during 1871; 122 during 1872; 146 during 1873; 147 during 1874; 154 during 1875; 155 during 1876; 145 during 1877; 147 during 1878; 158 during 1879; 176 during 1880; 197 during 1881; 242 during 1882; 249 during 1883; 295 during 1884; 459 during 1885; and 485 during 1886. The discrepancy between the actual numbers and those obtainable by adding up the columns may be explained by the fact that many patents refer to more than one subject, and have, consequently, to be classified under two or more headings.

[1] This column presents a statement of the average numbers attending at one service only on the Sabbath, and it has been pointed out that this mode of calculating the attendance does not render the returns of the different denominations strictly comparable, inasmuch as, in connexion with some religious bodies, there are several services held on the same day, at each of which an entirely distinct set of worshippers attends, whilst, in the case of other denominations, the attendance at subsequent services always consists, to a greater or less extent, of the same individuals as were comprised in the first congregation.——[2] These figures are only approximate.——[3] The return of the Wesleyan Methodist Church shows a decrease in most of the items, as compared with the return for the previous year, in consequence of the statistics of the Church in Tasmania having been included in the return for 1885 in error.——[4] These figures have been copied from the return for 1884, as the information has not been furnished for 1885 and 1886.

NOTE.—The returns of several of the denominations show smaller numbers than they did in the previous year, but it is questionable whether a falling off really occurred. It is to be regretted that some of the religious bodies do not possess any regularly organized machinery for obtaining accounts of their strength and progress. The same remarks apply to the Sunday Schools, *post*.

[1] The return of the Wesleyan Methodist Church shows an apparent decrease as compared with that of the previous year, in consequence of the statistics of the church in Tasmania having inadvertently been included with the Victorian figures for 1885.

[2] These returns have been copied from the return for 1885, as the information has not been supplied for 1886.

[3] The information not having been furnished for 1885 or 1886, the figures for 1884 have been repeated.

[4] These figures are only approximate.

NOTE.—Several of the denominations have not distinguished the sexes of teachers and scholars, hence the sum of the males and females in the total does not agree with the total of both sexes.

[1] These amounts were received many years since. No Government aid has ever been given towards maintenance.——[2] Regular masters only. Visiting masters are not included.——[3] In connexion with the Melbourne Grammar School there are three council scholarships of the annual value of £21, for boys under 14, tenable at the school for three years; and two exhibitions of the annual value of £20, tenable for two years, open to the competition of boys proceeding to the Melbourne University, whose names have been for the two previous years on the school register, and who have passed the Matriculation Examination with credit. The Head Master offers for open competition, in February each year, two scholarships of the annual value of £30 and £25, and two exhibitions of the value of 15 and 10 guineas respectively. The two senior scholarships and exhibitions are open to boys under 15 on 1st February every year; the two junior to boys under 13. There is also a "Witherby Scholarship," the holder of which claims exemption from school fees for three years. The school is now divided into two sides—Classical and Modern—from the Third Form upwards. The Modern side being arranged so as to provide continuous preparation for commercial or station life.——[4] A scholarship of the value of £60 per annum, tenable for two years, has been given by Mrs. F. W. Armitage, the conditions of tenure being that the holder shall be a resident student of Trinity College, Melbourne, and shall have been for two years previously a pupil of the Church of England Grammar School, Geelong. The Head Master always receives one son of a clergyman of the Church of England as a resident boarder, exempt from all school fees and cost of residence. There is a Preparatory School for boarders and day-scholars attached to the school.——[5] In connexion with the Scotch College the following scholarships will be competed for early in February, 1887:—Two scholarships value 20 guineas each, open, without restriction of any kind, to all boys who have passed the Matriculation Examination, tenable at the college for one year. Subjects of examination:—Classics and mathematics, as at Matriculation; special excellence in either group will be taken into account. Two scholarships value 20 guineas, open, without restriction of any kind, to all boys under fifteen years of age who have not passed the Matriculation Examination, tenable at the college for one year. Subjects of examination:—English, Latin, arithmetic, algebra, and geometry, as for Matriculation. Scholarships value £10, open to those boys only who gained one of the State school scholarships in 1886. Subjects of examination:—Same as for scholarships.——[6] In connexion with the Wesley College there is a scholarship called the "Draper Scholarship," which was established in memory of the late Rev. D. J. Draper, who perished in the *London*. It is of the value of £25, tenable for one year. Two other scholarships have also been founded by Mrs. Powell, to be called the "Walter Powell Scholarships," in memory of her late husband. They are of the value of £40 each, payable in two annual instalments of £20, and tenable on condition of the scholar pursuing his studies at the University. In addition there are the "Waugh," the "Eggleston," and the "Corrigan" scholarships, each of the value of 16 guineas, tenable for two years. Accepted candidates for the Wesleyan ministry form a distinct division, but their admission is only a provisional arrangement awaiting the proposed establishment of a Theological Institution. A strictly commercial side has been established, in which boys who are destined for mercantile pursuits can, if their parents so desire, be exempt from the study of Latin and French, other subjects fitting them for their future career being substituted.——[7] St. Francis Xavier's College was opened during the year 1878, and many of the scholars were transferred to it from St. Patrick's, of which it is a branch.

* It is probable that the figures in these columns do not always indicate distinct individuals, but acts of relief, and that a person relieved over-and-over again is the cause of as many entries as he is times relieved.

† These figures have been copied from the return for the previous year, as the information has not been supplied for the year 1885-6.

‡ In these cases the figures refer to "*families*," the number of distinct individuals not having been given.

NOTE.—The returns of some of the societies do not distinguish the sexes of the persons relieved, hence the sum of the males and females on the total line does not agree with the total of both sexes. The returns of receipts and expenditure represent the *net* amounts received and expended, exclusive of credit and debit balances, &c.

	Voluntarily.	Compulsorily.	Total.	Died.	Otherwise.	Total.		Had Delirium Tremens.	Used Tobacco.	Were Constant Drinkers.	Were Periodical Drinkers.	Had Intemperate Parents.
8	29	9	38*	...	36	36	10	30	27	30	8	6†

* Of these, 30 were males and 8 were females.

† Patients are frequently unwilling to acknowledge parental intemperance, hence this number is far below the heredity.

NOTE.—Several ill-disposed patients were expelled during the year for breaches of discipline. Though the Inebriates Act is very good, it does not explicitly give sufficient legal power to the Superintendent to deal with ill-disposed patients who are anxious to leave or be expelled. The Legislative Council passed disciplinary Bills in two Sessions, but they were not passed by the Assembly. The last was in 1884, when the Bill, after being passed by the Council, was stonewalled throughout the Session in the Assembly.
